

Smart Collaboration —
Where Things Get Done

Schools

HuddleVU is the perfect addition to any library, lab or classroom. Here students can work in small groups to finish assignments, do research or perform simulations. HuddleVU's color coded ease of use makes it suitable for any grade level.

Medical

There are a wide variety of applications for HuddleVU in the medical market. HuddleVU makes a perfect console for remote learning consultations, tele-medicine, peer reviews and more.

HuddleVU helps maintain patient confidentiality. It only displays the information contained on the doctor's or nurse's laptop or smart device. Since there is no direct access to the user's personal data, it is impossible for unauthorized users to acquire any information and helps preserve HIPPA compliance.

Business

Collaboration is perfect for those small, mini meetings. HuddleVU is designed for all meeting spaces, hotel lobbies, coffee shops, and "phone booth" spaces. Simple to use, easy on the budget and attractive table control!

**Collaboration
with Ease
and Elegance**

Collaboration, Interactive Learning, Mini Meetings or Huddle Stations! Whatever name you give it, students, doctors, or business professionals gather to work together on projects, perform research and review completed works. HuddleVU is the perfect collaboration solution.

Collaboration is as simple as 1, 2, 3

Lift the cover

Plug in Laptop or Mobile Device

Push the button

Yes, it's that simple!

The attractive HuddleVu Table Control units have AC and USB power connections and color coded HDMI cables for each user. Simply plug in and push the color coded button and the user's notebook or tablet has control of the screen.

HuddleVu offers several different systems to meet your requirements and budget. While most systems will use only one screen, systems are also available for 2 and 4 screens.

HuddleVu Systems are supplied with:

- Table Control Units
- Controller
- Switcher(s)
- HDMI Cables

Optional equipment:

- Under Table Rack Mount Kits
- USB Charging Ports
- PC to HDMI Converters
- Remote Switched AC Receptacle Wall Plates

Mount HuddleVu in your existing tables or contact FSR for table options.

Excellent switching capability, easy installation and systems to fit every budget!

Only from HuddleVu.

Select your System

HV-INDIVIDUAL

This system handles 3 to 7 participants, each with their own HV-T3 Table Control (photo shown). The units are mounted around the table in the appropriate positions for the users. If you are working with a smaller table, you can order a version of this table box for two participants.

Depending on the number of users, each system may include: 1 or 2 HDMI switchers, a controller and individual HV-T3s.

HV-1000 SYSTEM

The HV-1000 System is designed for up to 4 users sharing a single Table Control unit. Color coded HDMI cables, which are included with the system, match the corresponding integrated button on the HV-T6 Table Control unit.

The HV-1000 System includes an HV-T6 table control unit, a controller, a switcher, and cabling for up to 4 users.

HV-T6-FLEX SYSTEM

The Ultimate Collaboration System. It includes all of the features and options of the HuddleVu with the sophisticated and award winning Flex Control System.

This system allows HuddleVu to integrate cameras, teleconferencing systems, recording, playback and streaming equipment, lighting, shade control and much more!

HuddleVu Flex's intelligence and scheduler allows the system to automatically power down when not in use. It can also alert staff to unintended use as well as faults within the system. These features contribute to smart, green rooms. They reduce power consumption and increase bulb life, saving you money.

A few examples of the many system configurations available.
