LANDMARK Solaris® GOLD

Landmark Solaris® Gold is an energy-saving breakthrough that puts cool roof technology to work. It is a steep-slope, solar reflective asphalt roofing shingle which contains advanced colored granules that reflect the sun's rays and can reduce a roof's temperature during those hot summer months.

With Landmark Solaris Gold, a new dimension is added to shingles with a richer mixture of surface granules. You get a brighter, more vibrant, more dramatic appearance and depth of color. All colors meet ENERGY STAR® standards with a Solar Reflectivity of 0.26 (SR26).
