

Independent rubber shock absorbers at each corner

Polyethylene Molded Shock Racks

Gator's lightweight Polyethylene shock racks are built for protection and function. The shock rack is specifically designed to allow 360 degree air ventilation around equipment to keep your gear lasting longer. Adjustable interior sliding support on each side of rack adjusts front to back and up and down for rear support of gear to eliminate shifting and jostling. Recessed side handles give your hands a break while the locking lid gives you peace of mind.

Console Racks

- Lightweight Polyethylene construction
- Front, rear & top rack rails with rear wire access
- Recessed side handles
- Compact size for easy transport

Pop-up top-loaded racks include a ratchet top which allows adjusting to various angles during use and transporting with the top flat
