**F**lexTuft® is miles away from ordinary rubber tile. Made from recycled tires, it can withstand repeated water dousing, high traffic, heavy loading and exposure to the elements. With FlexTuft® rubber tile, what's good for the environment is also good for the most challenging indoor and outdoor settings. In fact, this durable, anti-slip flooring meets ADA recommendations for ramps, as well as being ideal for foyers, exercise facilities and stairways.

Complete specs on pages 32-33.
