

Shown in Autumn Blend and Shadow Gray

With Presidential Special Effects, you can create your own unique roof.

Every home's personality is a reflection of its owner.

Traditional. Precise. Eclectic.

Find yourself in the home of your dreams with a design that's unique to your personality. Special Effects provide the opportunity for you to start with our styles, and make them your own.

By choosing Presidential Shake TL™ or Presidential Shake™ shingles, you'll set your home apart the classic beauty of hand-split cedar shakes. Special Effects enables you to take elegant good looks to dramatic new heights.

The exclusive, patented cut allows you to combine any two colors from our palette in a perfectly matched pattern of your own making. A number of Special Effects color combinations are shown at right. Dozens of other options are available to create a one-of-a-kind look.

Presidential Shake TL and Presidential Shake give you the ability to top your home off with an original design statement.

Imagine the possibilities.

◀ ANOTHER UNIQUE EFFECT... 2" EXPOSURE

Blending colors isn't the only way to achieve a unique look using Presidential shingles. The unusual roof on this home is the result of a special installation technique that shortens the normal shingle exposure to 2 inches.

	• ICC-ES-ESR-1389

Presidential Shake TL and Presidential Shake are available nationwide.

Lifetime and 50-year limited transferable warranties, including 10-year SureStart™ protection, are applicable only in the United States, its territories and Canada; for products sold outside these areas, please refer to the International Warranty for specific details and limitations.

TEAR RESISTANCE AND ASTM D3462 COMPLIANCE ARE CLASSIFIED BY UNDERWRITERS LABORATORIES, INC. UL'S CERTIFICATE OF COMPLIANCE IS AVAILABLE FROM CERTAINTEED UPON REQUEST.

Integrity Roof System™

WinterGuard™ - Waterproofing shingle underlayment prevents leaks from wind-driven rain and ice dams in vulnerable areas.

Roofers Select™ or DiamondDeck™ - High-performance underlayment provides a protective water-resistant layer over the roof deck and a secondary barrier against leaks.

Starter Shingles - Starter shingles are designed to work specifically with each different type of CertainTeed shingle for maximum performance.

CertainTeed Shingles - High-Quality shingles available in a wide variety of styles and colors, covered by the strongest warranty in the business. Flintlastic roll roofing products are also available for flat roof areas.

Hip & Ridge Caps - Accessory shingles are used to finish the hips and ridges of the roof and are designed to complement the appearance of CertainTeed shingles.

CertainTeed Ridge Vents - CertainTeed® Ridge Vents combined with sufficient intake vents, such as CertainTeed® Intake Vents, are the most effective ventilation system.

NOTE: REPRODUCTION OF COLORS throughout this publication is as accurate as modern printing will permit. Colors are subject to changes by granule manufacturers. Before making a final selection, please consider the following:

- 1) View a full-size shingle;
- 2) See actual roof applications;
- 3) Inasmuch as the appearance of a roof may vary depending upon the light exposure, consider viewing several roof applications under various kinds of light, i.e. bright sun, partial sun, full cloud, etc.;
- 4) Determine if the pitch of your roof will impact how a shingle color will look on your home. To make the best selection, view homes with your shingle color choice with roof pitches similar to your own.
