IP LINK PRO SERIES CONTROL PROCESSORS

IPL Pro IRS8
IP Link Pro Control Processor

The Extron IPL Pro IRS8 is a compact, high-performance control processor with eight one-way IR/serial ports. As with all IP Link Pro control processors, the IPL Pro IRS8 combines more power, speed and memory. It features advanced security standards and Gigabit Ethernet, which ensures compatibility with multiple TouchLink Pro touchpanels using today's network infrastructure. It is designed to be used as a stand-alone control processor in systems configured with Global Configurator Plus or Professional. It may also be grouped with other IPL Pro control processors or with an IPCP Pro control processor in more complex systems configured with Global Configurator Professional.

FEATURES
- Supports TouchLink® Pro touchpanels
- Supports secure industry standard communication protocols
- Eight IR/Serial ports for one-way control of external devices
- Supports popular BMS – Building Management System protocols, such as BACnet, KNX, and DALI
- Manage, monitor, and control AV devices using a standard Ethernet network
- Power over Ethernet allows the control processor to receive power and control over a single Ethernet cable, eliminating the need for a local power supply
- Supports up to 32 Ethernet-controllable devices

Model	Version Description	Part Number
IPL Pro IRS8	Eight IR/Serial Ports.........................	60-1415-01

IPL Pro CR88
IP Link Pro Control Processor

The Extron IPL Pro CR88 is a compact, high-performance control processor with eight contact closure inputs and eight relay ports. As with all IP Link Pro control processors, the IPL Pro CR88 combines more power, speed and memory. It features advanced security standards and Gigabit Ethernet, which ensures compatibility with multiple TouchLink Pro touchpanels using today's network infrastructure. It is designed to be used as a stand-alone control processor in systems configured with Global Configurator Plus or Professional. It may also be grouped with other IPL Pro control processors or with an IPCP Pro control processor in more complex systems configured with Global Configurator Professional.

FEATURES
- Supports TouchLink® Pro touchpanels
- Supports secure industry standard communication protocols
- Eight relays for controlling room functions
- Eight contact closure ports
- Supports popular BMS – Building Management System protocols, such as BACnet, KNX, and DALI
- Manage, monitor, and control AV devices using a standard Ethernet network
- Power over Ethernet allows the control processor to receive power and control over a single Ethernet cable, eliminating the need for a local power supply
- Supports up to 32 Ethernet-controllable devices

Model	Version Description	Part Number
IPL Pro CR88	Eight Contact and Eight Relays...............	60-1416-01

CUSTOM BUTTON BUILDER

Custom Button Builder
Create Buttons with Just a Few Clicks

The Extron Custom Button Builder provides convenient and simple customization of soft-touch, backlit buttons for Extron MLC 60 Series controllers and TLP 350 touchpanels. This dynamic online tool features a graphical representation of the product's button layout and a button configurator pane with many options for easy edits.

FEATURES
- Customize text for single or dual line buttons and easily change font size while monitoring character count
- Easily add symbols to buttons
- View, add, and remove products from the Bill of Materials
- When you've finished building your buttons, the Success Screen provides a quick summary with a part number
