

Product Use

Flintlastic® STA is designed for use as a roofing membrane over various types of substrates for both new construction and re-roofing installations. It is suitable for large or small low slope roof decks and may be used for roof system flashings, including wall treatments, base flashings and field flashings.

- Flintlastic STA is intended for torch application only and should not be exposed to adhesives or solvent-based materials.
- Use as a base or ply sheet under Flintlastic GTA or GTA-FR.
- Use as a cap sheet followed by a coating, such as FlintCoat™-W (ENERGY STAR® rated).

CertainTeed Commercial Roofing

Flintlastic® STA

APP Modified Bitumen for Torch Application

Benefits

- Durable, polyester-reinforced products for long life.
- Polymer-rich formulation makes torching easy.
 - Saves time (quick installation).
 - Reduced propane usage (less heat required to melt product).
- Up to 20-year system warranties available.
- Minimal set-up costs.
- Meets ASTM D6222, Grade S, Type I.
