Overall, AirStep Advantage reflects a lovingly crafted look that will fit beautifully with your lifestyle.

Savor the beauty of the natural stone looks and strikingly large format layout of Savor. Real stone texture heightens the authenticity.

Playtime's rustic wood looks, the hottest look in the industry, coordinate well with bright accent walls that rouse happy memories of childhood and bring the laughter back to your life.

Cherish reminds you of the precious memories created with close family and friends. Inspired by a natural weathered slate, bold rich colors, just like your rich memories, enter your home. Your floor will stand out as the stunning centerpiece of your interior design.

Unwind with the smooth mild stone of a traditional travertine that recreates the peace of relaxing in quiet reflection in the mountains or slowing down for a cup of tea with a friend.

AirStep Advantage designs truly reflect the most important elements of life and the most fashionable design and style elements in the marketplace today.
