

IP LINK PRO SERIES CONTROL PROCESSORS

IPCP Pro 550

IP Link Pro Control Processor

The Extron IPCP Pro 550 is a versatile, high-performance control processor designed for centralized AV control in larger applications. As part of the new IP Link® Pro Series, the IPCP Pro 550 is engineered to be faster and more secure in almost every way. It features advanced security standards and Gigabit Ethernet, which ensures compatibility with multiple TouchLink® Pro touchpanels using today's network infrastructure. It also supports Extron LinkLicense™ that enables the use of third party devices as primary control interfaces. The IPCP Pro 550 is an ideal choice for controlling multiple devices and signal types within an AV system.

FEATURES

- Supports TouchLink Pro touchpanels
- Supports secure industry standard communications protocols
- Supports LinkLicense
- Six bidirectional RS-232 serial ports with software handshaking
- Two bidirectional RS-232/RS-422/RS-485 serial ports with hardware and software handshaking
- Eight IR/Serial ports for one-way control of external devices
- Four Flex I/O ports
- Supports popular BMS – Building Management System protocols, such as BACnet, KNX, and DALI

IPCP Pro 350

IP Link Pro Control Processor

The Extron IPCP Pro 350 is a versatile, high-performance control processor designed for centralized AV control in mid-sized applications. As part of the new IP Link® Pro Series, the IPCP Pro 350 is engineered to be faster and more secure in almost every way. It features advanced security standards and Gigabit Ethernet, which ensures compatibility with multiple TouchLink® Pro touchpanels using today's network infrastructure. It also supports Extron LinkLicense™ which enables the use of third party devices as primary control interfaces. The IPCP Pro 350 is an ideal choice for controlling multiple devices and signal types within an AV system.

FEATURES

- Supports TouchLink Pro touchpanels
- Supports secure industry standard communications protocols
- Supports LinkLicense
- Two bidirectional RS-232 serial ports with software handshaking
- One bidirectional RS-232/RS-422/RS-485 serial port with hardware and software handshaking
- Two IR/Serial ports for one-way control of external devices
- Four Digital I/O ports
- Supports popular BMS – Building Management System protocols, such as BACnet, KNX, and DALI
