

THS FAMILY

METAL DETECTION SYSTEMS FOR QUALITY CONTROL

THS/PH21

- **THS/PH21**

PHARMACEUTICAL METAL DETECTION SYSTEMS

Featuring state-of-the-art performance and full compliance with Pharmaceutical Sector Regulations

THS/FB

- **THS/FB**

CONVEYOR BELT WITH INTEGRATED METAL DETECTOR AND EJECTION SYSTEM

Full compliance with HACCP criteria, Structure and components in AISI316L Stainless Steel and food-compatible plastic parts, All parts completely reversible and modular, Digitally-adjustable belt speed, High level of electronic and mechanical Reliability

THS/PL

- **THS/PL**

INDUSTRIAL METAL DETECTOR FOR LIQUID AND VISCOUS PRODUCTS

Very High Detection Sensitivity, Full compliance with HACCP criteria, Housed entirely in AISI316L Stainless Steel, Easy to clean and inspect, Very High Reliability

THS/PLV

- **THS/PLV**

INTEGRATED SYSTEM WITH EJECTION VALVE FOR LIQUID AND VISCOUS PRODUCTS

Very High Detection Sensitivity, Full compliance with HACCP criteria, Fast-acting rejection device, Standard pipe sizes available to suit all applications, Housed entirely in AISI316L Stainless Steel, Easy to clean and inspect, Very High Reliability

- **THS/FFV**

INTEGRATED SYSTEM WITH EJECTION VALVE FOR GRANULAR AND POWDER PRODUCTS

Very High Detection Sensitivity, Ejection speed and accuracy, Pipe in antistatic material, Full compliance with HACCP criteria, Easy to clean and inspect, High level of electronic and mechanical Reliability

THS/FFV
