

— PEACE OF MIND —
WITH MOBILE CONTROL FEATURES

THERMOSTATS

Tap “cool” or “heat” to select AC or heat

Tap the “up” or “down” arrows to adjust the temperature

Tap “auto” to have the blower fan turn on automatically

Tap “off” to turn your thermostat off

DOOR LOCKS

The app shows whether each door is **locked**

Tap a **key** icon to lock or unlock a door

NOW, your alarm system can do more than just keep your home secure. It can turn your lights on and off, set your thermostat, lock your doors, view cameras and give you event notifications, all from a convenient App.

LIGHTS & APPLIANCES

Tap a light icon to turn on or off

For dimmable lights, touch and slide the button to the desired level

BETTER SECURITY WITH AN APP THAT GOES EVERYWHERE YOU GO.

Use the **Virtual Keypad™ App** on your **Apple®** devices to take control of your security system wherever **YOU GO!**

- ➔ Check your **system status** or check **history of events** to be sure your home is armed
- ➔ **Arm** or **disarm** your system in an instant
- ➔ Select from the **Home | Sleep | Away** arming options
- ➔ Turn outputs **on** and **off** e.g., garage doors and sprinklers
- ➔ Control **Z-Wave®** devices: lights, thermostat and locks
- ➔ Access **wireless cameras**
- ➔ Manage **system schedules**

HOME | SLEEP | AWAY

➔ ARMING ←

Choose the level of protection you need.

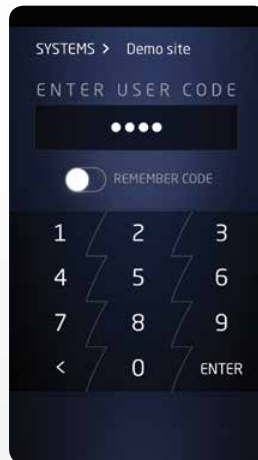

Tap **“home”** to **arm**
Tap it again to **disarm**

SYSTEM USER CODE

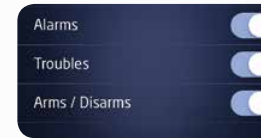

Enter user code to control the app.

A System User Code may be permanently saved on the device by sliding the **“save user code”** option switch to **“on”** before selecting enter.

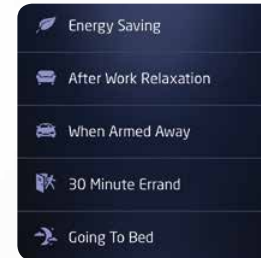

PUSH NOTIFICATIONS

Set your own alerts. Select a message category you would like **notifications** from.

FAVORITES

Favorites Setting controls multiple devices with a single button whether on/off or devices with range control. Tap the name of the **“favorite”** icon to activate

MANAGE SYSTEM USERS

Add, remove, or edit **users** from your system. Edit user permission if you are a **‘master’** user.

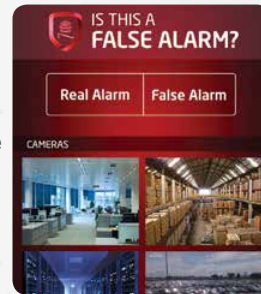

ROOMS WITH A VIEW

Watch **real time Z-Wave device activation** via video when clicking on hotspots in the Rooms List view.

VIDEO VERIFICATION

During an alarm, click on the **Alarm Push Notification** and instantly view a list of available camera views.

VIDEO CAMERAS

Use the **Virtual Keypad™ App** to remotely access interior and exterior wireless IP video cameras.

Select up to **six cameras** and remotely view the images live, record video clips or have clips emailed to you.
