METAL DETECTION SYSTEMS
FOR QUALITY CONTROL

THS FAMILY

THS/STD
STANDARD VERSION

THS/MN
FOR INSPECTION OF PRODUCTS
IN METAL FOIL

THS/3F
FOR PRODUCTION LINES WITH HIGHLY
VARIABLE "PRODUCT EFFECT"

THS/SL
FOR APPLICATIONS IN LIMITED SPACES

THS/FB
CONVEYOR BELT INTEGRATED
WITH METAL DETECTOR
AND EJECTION SYSTEM

THS/G
FOR FREE-FALLING PRODUCT
APPLICATIONS

THS/PLV
INTEGRATED SYSTEM
WITH EJECTION VALVES FOR LIQUID
AND VISCOUS PRODUCTS

- **Very High Sensitivity** to all magnetic and non-magnetic metals, including stainless steel

- **Autolearn and automatic tracking** of the Product Effect

- Full compliance with **HACCP criteria**

- **250 Product Data Memories**, selectable by local programming, bar-code reader or network software

- Completely housed in **AISI 316L Stainless Steel**

- **Very High Reliability**

- Minimum Installation Space required

- Programming via local keyboard and display or Local Access Network
