

A SECURITY SYSTEM FOR YOUR LIFESTYLE

STRONG SECURITY **PLUS** CONVENIENCE FEATURES THAT SAVE MONEY

The XTL™ Wireless Security System has every feature you need to protect your family and home. It also includes remarkable remote control features. Send texts or use the Virtual Keypad™ App to turn the system on or off, and receive alerts if an alarm trips. Add optional devices to control lights and thermostats, and lock or unlock doors.

Connect up to six video cameras, interior and exterior, to automatically record video. View and record any camera from your smart phone or tablet. Monitor activity inside and outside your house, or just check in to be sure all is secure.

Call today to learn how you can protect your home *and* get a long list of convenience features with the XTL, it's more-than-a security system.
