iS FLEX STRAP

FLEXIBLE AND VERSATILE – INFINITE SOLUTIONS FOR INFINITE PRODUCTS

iS Tags with RF technology work with all Checkpoint EAS security systems; iS Tags with AM technology work with AM-compatible security systems..

The iS Flex Strap is an anti-theft solution that can effectively increase merchandise visibility and protection. Among Checkpoint attachments, it's a natural fit for high-profile, high-risk items in all retail environments. It attaches easily with a clip or pin tag, and keeps items secure until deactivated. The iS Flex Strap can be removed at POS for re-use, or by the consumer at home —whichever you prefer. To protect your merchandise, you now have infinite solutions in a single attachment: the iS Flex Strap from Checkpoint.

Highlights:

✓ One solution to protect a multitude of goods
✓ Appropriate for all retail environments
✓ Works with a wide array of Checkpoint tags
✓ Clips or pins securely; fits items up to 2-1/8"
✓ Quickly deactivated for increased speed at POS
✓ Ultra-lightweight; enhances the customer experience
✓ Designed for @Source or in-store application
✓ Combats organized retail crime (ORC)
✓ Available exclusively from Checkpoint Systems
