KANTECH

EntraPass Special Edition

Security Management Software

EntraPass Special Edition is a single workstation security software. It controls up to 128 doors with KT-100/KT-300 and up to 256 doors with KT-400 door controllers. The software is comprehensive and menu-driven. It is easy to learn and operate. Administrators can define or modify parameters such as schedules or access levels, generate reports and activate controlled devices (i.e. locking/unlocking doors, or activating relays for lighting or air conditioning). EntraPass offers integration with Exacq video management systems, American Dynamics DVRs/NVRs (VideoEdge, HDVR, ADTVR and Intellex) and DSC PowerSeries and MAXSYS intrusion alarm panels.

Features:

- Fast/user-friendly installation/operation
- Integrates with telephone entry systems
- Embedded Sybase SQL database engine
- Built-in e-mail reporting capability
- Double and triple swipe card at reader (KT-400 controller) to activate relay, arm alarm system, lock/unlock doors and more
- Integrates with Exacq video management systems, American Dynamics DVRs/NVRs (VideoEdge, HDVR, ADTVR and Intellex) and DSC PowerSeries and MAXSYS intrusion alarm panels

EntraPass Corporate Edition

Security Management Software

EntraPass Corporate Edition is a proven platform that offers the ultimate balance between power and affordability in a network environment. It supports Kantech IP Link which provides a secure and affordable way to manage an access control system over a network using KT-100 or KT-300 controllers. The software integrates advanced security features such as EntraPass Go mobile app and EntraPass Web platform that deliver remote and convenient access to common security tasks and reporting. The enhanced user experience makes navigation and operation easy and intuitive.

Features:

- Supports up to 20 workstations and controls hundreds of thousands of doors
- Embedded Sybase SQL database engine
- Supports up to 50 concurrent logins of EntraPass Web and/or EntraPass Go
- Integrates with Exacq video management systems, American Dynamics DVRs/NVRs (VideoEdge, HDVR, ADTVR and Intellex) and DSC PowerSeries and MAXSYS intrusion alarm panels
- Double and triple swipe card at reader (KT-400 controller) to activate relay, arm alarm system, lock/unlock doors and more

KANTECH

Security Management Software

EntraPass Global Edition is a powerful, network-ready enterprise level security management software that accommodates widely-dispersed applications with an unlimited number of users, controls thousands of doors and allows you to simultaneously access the system from up to 128 workstations connected to the network. Global Edition software integrates advanced security features such as EntraPass Go mobile app and EntraPass Web platform that deliver remote and convenient access to common security tasks and reporting. The enhanced user experience makes navigation and operation easy and intuitive.

Features:

- Supports up to 128 workstations and controls hundreds of thousands of doors
- Embedded Sybase SQL database engine
- Global virtual alarm system, anti-passback, guard tours and muster reporting
- Supports up to 200 concurrent logins of EntraPass Web and/or EntraPass Go
- Integrates with Exacq video management systems, American Dynamics DVRs/NVRs (VideoEdge, HDVR, ADTVR and Intellex) and DSC PowerSeries and MAXSYS intrusion alarm panels

EntraPass Go   Mobile Security Platform

EntraPass Go allows you to remotely control your security system from anywhere without being tied to a workstation. EntraPass Go puts you in control of your security. It enables you to interact with EntraPass security management software using only a few taps on your mobile device. The easy-to-use mobile app offers anytime, anywhere real-time management of over 20 security tasks. Manage/create cards, lock/unlock doors, request reports and more. EntraPass Go is available for download on the App Store and Google Play.
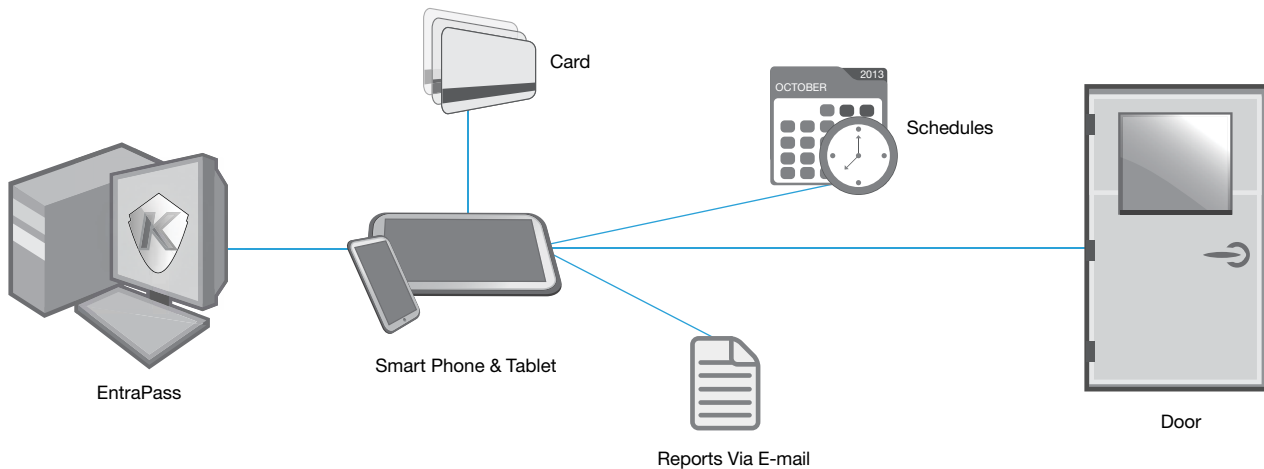

EntraPass Go requires EntraPass Corporate Edition or Global Edition v6.0 and higher.
Features:

- Convenient and intuitive interface
- Manage cards and take user's photos
- Integrates with EntraPass software
- Control over 20 security tasks in real-time
- Apple and Android compatible

EntraPass Web

Remote User Platform

The EntraPass Web platform enhances the user experience by delivering remote and convenient real-time access to manage common security tasks and reports from any computer connected to the internet. Security managers on the go can perform a host of functions via EntraPass Web, including locking/unlocking doors, managing cards and schedules, requesting reports, viewing live video, monitoring events by floor plan and so much more. Simply download the EntraPass Web application from any Windows PC web browser and stay connected even when on the go!

EntraPass Web requires EntraPass Corporate Edition or Global Edition v6.0 and higher.

Features:

- Intuitive design
- Monitor, manage and maintain security system without on-site personnel
- One interface for viewing video, operating DSC virtual keypad and managing doors
- Configurable to your specific needs for higher productivity
- Connect multiple monitors

Kantech Advantage (KAP)

EntraPass Update/Upgrade Activations

As EntraPass security management software continues to deliver new features and enhancements, it is important to have the productivity tools and training support to effectively use this solution. The Kantech Advantage Program (KAP) allows you to stay current with your EntraPass software installation using tokens. The number of tokens required is based on the EntraPass options activated per the chart below.

Features:

- Gain access to additional 12 months of software updates/upgrades
- Stay current with EntraPass software
- Access end user online training

"Newest features available when needed"

	Number of Tokens Required Per EntraPass Option		
EntraPass Options	EntraPass Special Edition	EntraPass Corporate Edition	EntraPass Global Edition
Base EntraPass System (Without WebStation)	1	1	3
Per 3 Concurrent WebStation logins	-	1	1
Per Video Vault	-	1	1
Per Card Gateway	-	1	1
Per Redundant Server	-	1	1
Per 4 or 5 Workstations	-	1*	1+
	Model Numbers		
Number of Tokens	EntraPass Special Edition	EntraPass Corporate Edition	EntraPass Global Edition
1	E-SPE-KTK-1	E-COR-KTK-1	E-GLO-KTK-1
2	-	E-COR-KTK-2	E-GLO-KTK-2
3	-	E-COR-KTK-3	E-GLO-KTK-3
5	-	E-COR-KTK-5	E-GLO-KTK-5
10	-	E-COR-KTK-10	E-GLO-KTK-10
20	-	-	E-GLO-KTK-20

- Feature or model is not available, *1 token required for every 4 active EntraPass Corporate Edition workstations, +1 token required for every 5 active EntraPass Global Edition workstations

Video Vault

Video Archive Management

Video Vault offers an alternative to manually saving each video clip one-by one. Simply pre-define groups for the video clips such as door forced open or access denied. Video Vault then saves the clips to the appropriate group based on whatever schedules are chosen. Video clips can also be organized as .bmp images in lieu of icons. It can connect up to 128 Exacq and/or American Dynamics DVRs/NVRs (VideoEdge, HDVR, ADTVR and Intellex) via integration with EntraPass software and can archive the imported video to as many as 24 digital storage devices.

Video Vault requires EntraPass Corporate Edition or Global Edition v3.xx and higher.
Features:

- Organize video clips by event category for future reference
- Thumbnail images can be created on the first frame of each video clip
- Stores unlimited amount of video clips
- Automatically associate .bmp image with each video clip
- Connect up to 128 Exacq and/or American Dynamics DVRs/NVRs (VideoEdge, HDVR, ADTVR and Intellex)

"Preserve, store and retrieve video"

Redundancy Server

Mirror Database

Redundancy server protects the EntraPass database against unexpected failures and is an option available with Corporate and Global Edition software. It features real-time data transfer, creating fully functional redundancy at low cost. In the event of primary server failure, the mirror database automatically launches the redundancy server which supports all the features and functionality of the primary server. Best of all, the redundancy server is easy-to-implement and configure. Multiple redundant servers with mirror database can be used to provide local redundancy in an enterprise environment.
Features:

- Easy-to-implement and to configure
- Connect up to 128 redundant servers
- Fast and reliable data transfer
- Hardware and software redundancy
- Automatic switchover to redundant server
- Real-time data synch – achieve accurate and consistent data across the platform

"Safeguard against data loss and downtime"

EntraPass Software   Advanced Security Features

SQL   Database Access

EntraPass Global Edition Software offers an embedded high-performance SQL database engine to allow administrators to generate custom reports from the EntraPass database. Use the powerful ODBC protocol to connect to third party reporting tools and to create your own reports.

SmartLink   Advanced System Integration and Automation

The SmartLink application enables operators to integrate EntraPass Corporate or Global Edition Software with most intelligent devices such as video multiplexers, HVAC systems, LCD panels, video matrix switchers, etc. SmartLink uses an RS-232, API or network connection between EntraPass and the external device. With the SmartLink Task Builder, EntraPass reaches new levels in task automation. A series of tasks, similar to macros, can be created and triggered on any event and component in the system. When an event occurs, the tasks are then executed by the system.

Card Gateway   Credential Management

The Card Gateway is an external interface where the customer will be able to make additions, modifications and deletions to the card database through the use of SQL queries. The Card Gateway also creates a real-time, mirror copy of the EntraPass card databases (card, card group, card type and badge tables) in order to be used for Human Resource/personnel and card management.

KANTECH

Intevo

Intuitive All-In-One Security Platform

Intevo integrates access control, IP video and intrusion into one common and powerful platform to deliver a holistic security solution. It's pre-loaded with Kantech's EntraPass Corporate Edition software, American Dynamics IP video software, and includes support for DSC PowerSeries and MAXSYS intrusion alarm panel integration. It is pre-configured to support EntraPass Go mobile app and EntraPass Web remote user platform. Intevo is easy to configure and includes a customized dashboard for easy system management.

Features:

- Plug and play capability
- Pre-configured for EntraPass Go mobile app and EntraPass Web platform
- Connect up to 32 IP cameras (Advanced model) or 16 IP cameras (Compact model)
- Integrates with Exacq and American Dynamics Digital Video Management Systems (see data sheet for more information)
- Windows 7 embedded
