

Pinnacle Argos

Innovative Security Management Since 1979

Integrates access control events with live video and controls Costar DVRs, NVRs and cameras anywhere with no licensing

Pinnacle Argos™ is a Web based application that can be deployed from any computer running Microsoft Internet Explorer. Argos is fully integrated with Pinnacle and using Pinnacle Filters and Filters Assignment you can call up a camera on the Argos monitor screen, record video, and call up presets on a PAN-TILT-ZOOM camera. No camera licensing or video drivers are required.

Users can control multiple sites with Pinnacle Argos™ by allowing multiple DVRs to be added to the system. The systems is expandable with Pinnacle version 7 and later as a standard feature allowing the control of 32 cameras, upgradeable to 64, 128 or unlimited cameras.
