

## AirLINE Quick

### Electrical/pneumatic automation system

#### Compatible with systems Wago, Phoenix, Rockwell and Siemens

- Combination of fieldbus, pilot valves and I/O modules
- AirLINE Quick - Stainless steel mounting plate saves time, effort and cost
- Compact design
- High flow rates

The AirLINE system provides a universal interface between process and system control. It integrates electrical and pneumatic devices in an assembly group, which allows a modular and flexible structure comprising of fieldbus modules, pilot valves and I/O modules through a simple snap-in technique.

AirLINE Quick adapter plate, with integrated fluid connections (hose connectors), can be attached directly to the cabinet wall.

This reduces installation costs and the cabinet can be smaller. The hygienic design allows the cabinet to be placed closer to the process. Hose distances can be shortened.

#### Technical data

Pilot valve 6524, 6525	
<b>Width/station</b>	11 mm
<b>Circuit function</b>	C (3/2) H (5/2)
<b>Flow rate</b>	300 l/min
<b>Pressure range</b>	2,5 to 10 bar
<b>Module types</b>	2x and 8x (integrated check valve and P-shut-off optional)
<b>Fieldbus</b>	PROFIBUS DP, INTERBUS, DeviceNet, CANopen, Ethernet, further on request
<b>Electrical modules</b>	WAGO I/O System 750 PHOENIX INLINE Siemens ET200S Rockwell Point I/O
<b>Operating voltage</b>	24 V DC
<b>Residual ripple</b>	1 Vss
<b>Nominal power per valve</b>	1 W (0.5 W Nominal power after 120 ms)
<b>Nominal current per valve</b>	43 mA (28 mA hold current after 120 ms) 41 mA (when using the Type 0460)
<b>Temperatures</b>	Ambient 0 °C to +55 °C Storage -20 °C to +60 °C
<b>Type of protection</b>	IP20 IP65 in closed cabinet
<b>Approvals</b>	Zone 2

## On the dot.

Precision components dosing liquids in the microlitre ( $\mu\text{l}$ ) range require tolerances under +/-1%. And when handling aggressive media, outstanding chemical inertness is paramount as well. Burkert offers an unparalleled solution to meet both of these demands: the Micro Dosing Unit 7615. It ensures high accuracy and reproducibility, pumps in both directions, and can be flushed conveniently. It's also very simple to install, making it the ideal choice for all your tasks – from analytical to medical!
