

# Professional Industrial Wet / Dry Vacs

## 14 Gallon Smart Pulse™ Vac

This RIDGID® 3410RV 14 gallon 2-Stage Industrial Wet/Dry Vac has differential pressure to clean the dual PTFE. This reduces face-loading and clogged filters making it the ultimate vac for pickup up fine dust and powders. This Industrial Wet/Dry Vac is designed to deliver powerful high-lift suction, large capacity, rugged construction, and excellent mobility for pro, contractor, industrial & commercial use.

- Self Cleaning Filter – Reduce face loading with the Dual PTFE filters and differential pressure to clean the filter.
- 11.5 Amp Motor – Drives two blower wheels to optimize suction and deliver industry-leading performance.
- 2-Stage Motor – Creates powerful “high-lift” suction and more efficient air flow. Result – more suction power and quieter operation.
- Longer motor life – Over 700 hours on average.
- Sturdy Cart, Push Handle & Large Rear Wheels – These features act together to allow the vac to travel easily up/down stairs and over rough terrain.
- Cord-Wrap/Large Handle – Large carry handle provides an area for the storage of the 25' power cord.
- Spin welded Drum Construction – Rugged construction to meet the higher demands found at worksites.
- 14 Gallon Drum – Allows clean-up of large spills & messes at work-sites and busy shops.
- Sound Reduction Technology – Scroll Noise Reduction® is a patented feature that provides quiet operation by precisely controlling the flow of air through the vac.
- Blowing capacity – Use to blow leaves from walkways or decks, and debris from job sites, tools, etc.
- Large built-in drain – Drain located to lowest point of drum for emptying of water.
- Premium Locking Pro Hose – The ultra-flexible hose won't pull loose during use, and is 4x more durable than our standard hose. This 1 7/8" x 15' hose has a smooth interior surface to reduce clogging.
- To reduce static build up use the sold-separately Premium Non-static Dissipative Locking Hose – This 15' durable hose won't pull loose during use, reduces static build up when collecting finer debris.
- Qwik Lock® Filter Fastening System – Makes installing or removing your filter quick, easy, and secure without tools or fasteners.

## Specifications

- Amperage (amps) – 11.5.
- Built-In Accessory Storage – Yes.
- Built-In Drain – Yes.
- Casters – Yes.
- Filter Type – Fine Dust Cartridge.
- Peak Horsepower Product Weight (lb.) – 32.
- Includes 2 PTFE coated filters, 1 7/8" x 15' Locking Hose.
