Dimensions

For push / pull tests and other force measurements where a horizontal test stand is required, the SH-110/220 Manual

Distance Meter Specifications	
Display	Push button for inch/mm, zero set and on/off
Resolution	0.0005"/0.01 mm
Accuracy	0.1% of reading or 0.005"/0.1mm, whichever is greater

Horizontal Hand Wheel Test Stands are an ideal choice. The test stands feature the advantages of the hand wheel design; relatively consistent speed, precise gauge positioning, and bi-directional movement. The low-profile SH-110/220 accepts any of the standard range Imada force gauges and special attachments.
