

Motorized Vertical Test Stands – MV-110

Force gauge sold separately

- One stand for both compression (push) and tension (pull) tests
- Maximum clearance 9" (with extender 14")
- Maximum load 110 lbf
- Screw feeder for smooth, positive movement
- Combination of screw drive system and high performance brushless motor provides extremely smooth and powerful operation over the entire speed range.
- No programming required
- Optional digital distance meter

Dimensions

Speed Configurations

Standard Speed	0.4~11.5"/min
Optional High Speed	0.8~23.6"/min
Optional Low Speed	0.15~4.7"/min

Specify Speed When Ordering

Model MV-110 offers basic motorized force testing. The combination of screw system and state of the art brushless motor provides extremely smooth and powerful operation over the entire speed range. Speed control, quick return and emergency stop switches are standard features. The MV-110 accepts any of the standard range Imada force gauges. Optional **digital distance meter** available.

AP-002 Adapter Plate is available to mount most other force gauges to Imada test stands.
