

THE BOLD LOOK  
OF **KOHLER**®

# HYBRID

energysystem

30\* Years of No-Hassle Power  
Powered by a maintenance-free hybrid energy cell

**KOHLER**. Faucets. Live Bold.

# HYBRIDenergysystem

Hassle-free power for 30\* years.

Thirty years. No moving parts. No need for sunlight. No maintenance. Period. In fact, working with faucets and flushometers powered by Hybrid goes something like this ... install, take 30 awesome summer vacations, celebrate 30 birthdays, and start your retirement. Oh, and remind the new guy to swap out the Hybrid energy cells in 2042.

## Powers Tripoint & Wave

Hybrid works with the Tripoint flushometer's highly accurate distance-measuring sensor and the WAVE flushometer's touchless hand-wave activation. So you can choose the right tool for your job.

## 30\* Years. Hassle-Free.

Parts don't freeze up or wear out. Low light isn't an issue. And traffic can be high or low. Hybrid energy cells don't rely on turbines, solar cells, or expensive back-up batteries to operate. 30 years – it's really that simple.

## Easier on the Environment

Free of mercury and heavy metals, Hybrid energy cells reduce landfill numbers of alkaline and lithium batteries, which typically need to be replaced every few years.

## Kohler In-House Recycling

When 30 years is up, and someone (chances are you'll be retired) is ready to replace your Hybrid energy cells, Kohler will recycle them at our in-house sustainability facilities.

### 1.6 GPF Toilet Flushometer

Wave: K-7523-CP/ K-7523-RF-CP Tripoint: 7535-CP/ 7535-RF-CP	
Optimized for use with	Toilet SKU
Kingston wall-hung toilet	K-4325
Highline elongated GPF toilet	K-4405
Wellworth elongated GPF toilet	K-4406
Anglesey elongated GPF toilet	K-4352
Primary elongated GPF toilet	K-4321

### 1.28 GPF Toilet Flushometer

Wave: K-7521-CP/ K-7521-RF-CP Tripoint: 7531-CP/ 7531-RF-CP	
Optimized for use with	Toilet SKU
Kingston wall-hung toilet	K-4325
Highline elongated GPF toilet	K-4405
Wellworth elongated GPF toilet	K-4406
Anglesey elongated GPF toilet	K-4384

\*Just one hybrid energy cell will power a flushometer or faucet for at least 875,000 cycles — no maintenance required. That's about once every 20 minutes, 24 hours a day, 365 days a year for 30 years.
