THE BOLD LOOK  
OF **KOHLER**®

## Loure

### A New Angle on Modern.

Combining a sleek profile with enhanced utility, the Loure® faucet collection introduces a classically modern look. Loure offers a sensual flow of water with precise temperature and volume control through innovative valving platforms. The faucet collection includes lavatory faucets, pressure-balancing and thermostatic shower components, and bath fillers.

Featuring the new UltraGlide™ valve, Loure lavatory faucets offer noticeably smooth, responsive temperature and volume control. The bath filler offers an easy-to-use single-control lever, while the pressure-balancing shower components support both a showerhead and handshower with a simple, integrated diverter. Together, the Loure faucet and coordinating accessory collections bring a new perspective to the bathroom.

Loure.
