

## 2016 WhiteBoardScreen™ Thin Edge Series Product Brochure

The versatile combination of whiteboard and projection screen features an improved thin-edge design with accessories tray.

The versatile combination of whiteboard and projection screen features an improved thin-edge design with accessories tray: This is the ideal presentation tool for your training facility. It is a leading edge combination of two essential classroom visual aids. The WhiteBoardScreen™ Thin Edge functions as a theater-grade projection material with a full lambertian diffuser that is also a dry-erase writing surface. It outperforms conventional whiteboards by providing superb color temperature without the glare for a clear and more effective presentation.

The actual projection surface is Elite's VersaWhite (matte white 1.1 gain) material. The WhiteBoardScreen™ Thin Edge is bordered with an ultra-thin aluminum black frame that protects the edges while enhancing perceived visual contrast. As with traditional whiteboard designs, it also features a magnetic surface to allow attachments to the screen's surface.

# WhiteBoardScreen™ Thin Edge Series

The versatile combination of whiteboard and projection screen features an improved thin-edge design with accessories tray

Thin edge bezel

## Screen Material

- VersaWhite 1.1 Gain projection surface is coated with a transparent optical nanotech dry-erase layer
- Provides true color reproduction and contrast enhancement over conventional whiteboard
