

LEVEL

2631 : Digital Angle Measure Level

- Easy vertical levelling:** front or side "double view" reading.
- High quality:** lifetime guarantee, UV protected, one-piece vials (shock resistant).
- Practical:** digital angle measurement in % and degrees (flow, slope).

High quality in aluminium profiles with 2 machined sole plates.
 Digital angle measurement in % and degrees, with 9 memories, **backlit LCD display**, calibration, buzzer at 0°, 45° and 90°.
 Optimum 0.5 mm/m precision thanks to top range one-piece vials (shock resistant), lifetime guaranteed with inside permanent engraved level line.
 The 2 vials are treated against UV radiations to prevent fading by sunlight.
 Easy front level reading **with the "dual view" system** and its 45° mirror.
Magnetized surface for easier work on metallic materials.
 Length 60 cm.

2631 : Compact Tubular Level

Shock-resistant mini-level with ABS casing and shock-proof grips.
 Magnetized surface for easier work on metallic materials.
 V-shaped sole plate to adapt to tubes.
 Accuracy: 0.8 mm/m.
 Length: 23 cm.
