SYMMETRY COMPLETEVIEW
SYMMETRY GUARDSTATION

Symmetry™ GuardStation is available as a Dual or quad Monitor client workstation under the Symmetry PowerProtect Platform.

These high performance workstations and monitors are designed for demanding security control room deployments. The Symmetry GuardStation client workstations work with Symmetry CompleteView without the need for high capacity server processing.

Workstations are preloaded with Symmetry CompleteView client software and support either dual or quad monitor configurations in a desktop form factor. Designed for Symmetry CompleteView VMS, GuardStation client workstations provide the tools and capability to view live video, perform investigations and export evidence to a variety of media.

The Symmetry GuardStation 23'' Monitor with IPS technology and LED backlights provides outstanding color consistency and exceptional energy efficiency, coupled with tilt, swivel, pivot and height adjustability for optimal viewing comfort. GuardStation Monitor sold separately.
