BIOSCRYPT 4G V-STATION LITE™

POWERFUL IDENTIFICATION TERMINAL FOR PHYSICAL
ACCESS CONTROL IN A COMPACT DESIGN

After careful review of customer feedback, the 4G V-Station Lite™ was designed to streamline installation and administration for small, medium or large business enterprise, or standalone door access control deployment. The new design brings the high speed, accuracy and interactivity of a 4G V-Station™ to the small form factor of the 4G Lite™ suite of products.

Technical Specifications:

- **Network/Communication Options:** Ethernet (TCP/IP) and RS485; PC Connection: USB

- **Input/Outputs:** Option for Wiegand in/out (customizable format up to 512 bits), 2 General Purpose Inputs (REX, Door Contact), 1 Form C Relay Output, 1 General Purpose Output

- **Integrated Door Relay Details:** 30V DC @1A Deadbolt, electromagnetic (EM) lock, door strike, automatic door

- **Authentication Options:** Finger only, Finger+PIN, Card only, Card+Finger, Card+PIN, Card+Finger+PIN

- **Internal Card Reader Options:** Prox or iClass/MIFARE/DESFire Card Reader

- **Audio:** Supports .wav custom files

- **Template Storage Capacity:**
  - 25,000 in 1:1 verification mode
  - 5,000 in 1:N identification mode

- **Transaction Log Capacity:** 100,000 logs stored on device

- **Power Supply:** 12-24V DC; Current Draw: 500mA @12V DC

- **Dimensions (H*W*D):** 8.86*2.05*2.00 inches ;225*52*51 mm

- **Operating Temperature:** -5°F to 150°F; -20°C to 65°C

- **Regulatory Approvals and Certifications:** FCC, CE, R&TTE, RoHS, IP65

- **Administration Software Options:** SecureAdmin Lite™ Software or Secure SDK™

Bioscrypt Enterprise Access Solutions, a subsidiary of L-1 Identity Solutions is now part of the Safran Morpho family

Bioscrypt Enterprise Access Solutions has been integrated into Morpho, the security branch of the Safran group, since September 20th 2011. Such integration has brought a number of commercial and technological advantages to Morpho, reinforcing our company's position as a market leader in the security industry.

With the addition of technologies, such as facial recognition, products like the 3D Face Reader will help to enhance Morpho's product range, giving our company the necessary expertise in all areas of the biometric access control sector. From facial recognition to finger vein/fingerprint terminals, Morpho will now be a one-stop solution provider for all your biometric access control needs.

Morpho, a high-technology company in the Safran group, is one of the world's leading suppliers of identification solutions, and the world leader in biometrics. Morpho's integrated systems and equipments are deployed worldwide and contribute to the safety and security of transportation, data, people and countries.
