

MORPHO TRUSTED IDENTITY SERVICES

ESERVICES FOR PUBLIC & PRIVATE SECTORS

Morpho Trusted Identity Services facilitate access to multiple online services for both public and private sectors through a reliable and safe usage of digital identities

Governments are facing an increasing challenge - to be able to offer their citizens a secure and reliable access to their online public administration services. At the same time, the private service providers are focused on providing the consumers with secure online services while answering needs of mobility and convenience. They have a common concern of providing citizens and consumers an online experience that guarantees data privacy. To answer these market needs, Morpho has designed a solution to manage digital identity services in a secure and reliable way

The Morpho Trusted Identity services is a multi sided platform combined with a comprehensive range of secure elements to offer secure online identity services.

The platform is designed for governments or private entities wishing to offer their citizens and consumers fast and secure access to digital services such as e-Government applications, e-banking, e-commerce and secure payment.

It is the reliable foundation allowing public and private entities to develop into service oriented agencies, with a guarantee of both an increased level of security and an improved operational efficiency.

Based on latest web technologies, the Morpho Trusted Identity Services provides seamless integration with 3rd party

applications to enable quick deployment and broader on-boarding of new service providers.

The platform also operates transparently to the end-user and is accessible with all types of devices such as computers, tablets and smart phones for an enhanced user experience, while answering the privacy protection concerns to ensure immediate adoption by the public.

With its worldwide leadership in biometrics, unrivaled experience in identity management, and strong expertise in secure documents and smart cards, Morpho is the ultimate partner to accompany you in the fast-growing market of secure online transactions.
