

Essentials IP Bullet Camera

Features That Make a Difference:

- 1 and 2 megapixels
- H.264 and MJPEG dual-stream encoding
- Maximum 30 ips
- Multiple network monitoring
- IP66
- 3.6mm fixed lens
- PoE
- IR Illumination
- True Day/Night
- Wide Dynamic Range

The Illustra Essentials bullet camera is available in 1 and 2 megapixel options which can be installed indoors or outdoors, and has IR Illumination. The bullet cameras can capture video in a variety of lighting situations with features such as True Day/Night and Wide Dynamic Range.

Low Light Clarity

The Illustra Essentials bullet camera masters low-light clarity. The sensitivity of the sensor and processor combination is enabled through the latest technology, such as True Day/Night. In low light, this camera delivers clear video surveillance.

Poor low-light performance by megapixel cameras hampers some of the most important tasks security professionals need to perform. When cameras lack clarity in low light, they also tend to increase bandwidth usage and storage costs. Cameras that fail in low-light clarity negatively impact both the necessary functions of security and cost of ownership.

Wide Dynamic Range

For applications where the glare of direct sunlight may affect surveillance, WDR is a must-have feature. Only the best performing cameras can manage the contrast created by the backlighting that direct sunlight can produce.

The Illustra Essentials bullet camera takes advantage of the latest pixel-by-pixel dynamic range offered today. Avoid loss of detail in strongly backlit scenes with the power of WDR. Maintain the details in faces with whole scene clarity. WDR works with the megapixel lens to enhance the precision of the image for a high-resolution HD solution that excels in a wide range of challenging lighting conditions.
