

A Quality Manufacturer

of Air Filtration Equipment, Filters and Components

BLC Industries Inc. was founded in July of 1976 as a manufacturer of formed and welded wire products for use in replacement filters. We quickly expanded by manufacturing such items as Bag Frames, Pad Frames, Permanent Filters, Holding Frames and Clips. Right away, BLC Industries was recognized as a value supplier of filter hardware and accessories.

In 1984, BLC introduced an entire Line of Air Filtration Equipment for the new construction and retrofit market. This equipment was engineered to provide hardware that would exceed performance requirements for any application.

Attention to detail, understanding applications and a steadfast commitment to quality and product improvement have made the BLC Equipment Line

one of the best received Air Filtration Lines in the last decade. Many have said it's the best equipment in the industry.

Years 2000 and beyond promise great opportunities for BLC Industries. Already an established and recognized leader in quality and value, the company started expanding its distribution and service network with a new Servicing Facility in Phoenix, Arizona. Additionally, BLC plans to introduce innovative new products, setting its course into the new century, all the while marketing aggressively to seek new, quality representation.

In the 21st century, we will pursue the philosophy that we took to flight in 1976. It's our "We can do it!" attitude. For Quality, Economy, Innovation and Service... It's always BLC!

**A Specially Organized
Manufacturing Facility
for Customization Based
on Your Product Specifications**

BLC Industries Inc. has been producing high quality Air Filtration products since 1976. Its Manufacturing Facility is based in Louisville, Kentucky. It is specially well adapted for product customization, in conformity with the very exact specifications of engineers, contractors or manufacturers.

Since 1976, BLC has added new Product Lines at a rapid rate. We currently offer 8 distinct and full Lines of Products. Additionally, we offer every option imaginable on each Line of BLC Products. We are capable of providing the personal attention and the customized products you need to compete in today's marketplace.

BLC's service, technical support and QuickShip capacity have earned us the reputation of an OEM you can rely on "when you absolutely have to get it done".

**A Uniquely Designed
Web Site Providing an
Easy-to-Use, Easy-to-Explore
Reference Tool**

Engineers, contractors, manufacturers' reps, OEMs and installation personnel... BLC has taken great care to organize its Web site into an easy-to-use, easy-to-explore reference tool.

We have classified our HVAC Filtration/Purification product offering into **8 distinct Product Lines**: Components, Filter Retaining Equipment, Automatic Filtration, Side Access ASHRAE, Gas-Phase Adsorption, HEPA Filtration, Filters, HVAC Accessories. Each Product Line has been **individually color-coded for quick product reference**.

Quick reference, easy access, specifically detailed solutions... A "real time" tool designed and engineered for HVAC Filtration:

1. All information/data necessary to select, size and specify every BLC product is provided in this Web site.
2. Additional information/data for each product is available. Consult factory: BLC Industries.
3. An *All Products* Sales Brochure detailing BLC's (8) Lines of Products is available.
4. A *Product Line* Sales Brochure for each one of BLC's (8) Lines of Products can also be obtained.
5. For installation instructions or additional engineering information/data, consult factory: BLC Industries.
6. Individual Product Pricing is available through a *Price List* for each one of BLC's (8) Lines of Products. Consult factory.
