

TEST PORT PLUGS

PIPING SYSTEM TEST PLUGS

FEATURES:

Piping System Test Plugs from Blue Ribbon Corporation are designed for permanent installation into piping systems for quick access during maintenance checks. They are designed to be used with gauge adapters for pressure tests or pocket thermometer insertion without shutting down or draining the system. Models are available with the Nordel or Neoprene Cores, Brass or Stainless Steel bodies, in sizes ranging from 1/8" NPT through 1/2" NPT. Cap and chain included.

Test Port Plugs

MODEL #	NOMINAL SIZE (IN)	OAL (IN)	MATERIAL	PRESSURE/TEMPERATURE	LOWER CONNECTION (IN)	BODY HEX (IN)	CAP HEX (IN)	CORE MATERIAL
BLU-18TP	1/8 NPT	1-1/4	Brass	200 °F/1000 PSI	1/8 NPT	13/16	9/16	Nordel
