CO₂ Controller

Effective pH control in pool water

The **ProMinent® CO₂ Feeder** is designed to utilize Carbon Dioxide (CO_2) in the control of pH levels in pools and spas.

There are a number of advantages when using CO_2 for pH control compared to acid. Adding CO_2 will not contribute to a TDS increase in water, thus reducing the amount of make-up water required to maintain the water quality. It is much safer, as there is no mineral acid solution or fumes present onsite, which solves the problems associated with handling acid and corrosive fumes. It is also simple to install and operate.

The **ProMinent® CO₂ Feeder** is equipped with all the necessary components for easy installation, reliable performance and safe operation. The design incorporates an electronic solenoid valve and a manually adjustable flow-meter.

Specifications

Overall Feeder Dimensions	8.2"H x 7.4"W x 7.5"D (w/ Mtg. Ft)
Overall Weight of Feeder	< 5 lbs.
Power Requirements	
Maximum Volume	5-50 SCFH or 20-200 SCFH
Maximum Pressure	100 PSIG
Normal Operating Pressure	40 PSIG
Recommended Running Temperature	+40°F to 100°F
Inlet Connection Size	
Outlet Connection Size	3/8" OD Tube

Order Information

Description	Part No.
CO ₂ -50 Feed Unit, 2-50 SCFH	7746991
CO ₂ -200 Feed Unit, 20-200 SCFH	
CO ₂ -50E Feed Unit, 2-50 SCFH w/ Eductor	
CO ₂ -50D Feed Unit, 2-50 SCFH w/ Diffuser	
CO ₂ -200E Feed Unit, 20-200 SCFH w/ Eductor	
2 Cylinder Automatic CO, Switchover System (CO, Feed Unit NOT included)	
4 Cylinder Automatic CO ₂ Switchover System (CO ₂ Feed Unit NOT included)	7747038
6 Cylinder Automatic CO ₂ Switchover System (CO ₂ Feed Unit NOT included)	
8 Cylinder Automatic CO ₂ Switchover System (CO ₂ Feed Unit NOT included)
