

ELLIOTT

EQUIPMENT COMPANY

SIGN & LIGHTING INDUSTRY

FIELD PROVEN RELIABILITY

YOU WORK HARD. SO SHOULD YOUR EQUIPMENT.

That's why we design and build every HiReach from the ground up with standard features that make sure it's ready to help you do the toughest jobs, every day. We start with a full length heavy duty subframe to give you a stable ride and help your chassis last longer. We add an oversize offset turret and high strength boom sections for rigidity and lifting capacity. Your ride is precisely controlled by our Dynasmooth hydraulic system. Designed for years of trouble free operation, it allows you to work with speed and precision so that you can access your work quickly and safely. Every Elliott comes with the peace of mind of knowing that your investment is backed by the best warranty in the business.

From installation to service work, Elliott Equipment Company has you covered.

L60 HiReach

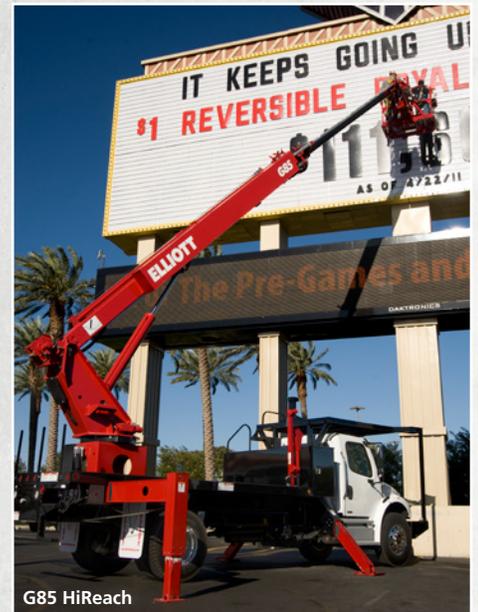

M85 HiReach

REACH HIGH AND WIDE

Elliott gives you best-in-class side reach to expand your working range. More side reach means more work in less time with fewer setups on the job. Plus, Elliott's point and shoot telescopic boom design means you don't need to worry about a tailswing hazard.

M43 HiReach

V60 HiReach

H90 HiReach

WHY ELLIOTT?

Faster jobs, maximum equipment life, and uptime make Elliott's HiReach truck-mounted material handling aerial work platforms the most innovative and feature-packed products on the market. Boost your independence and return on investment by using an Elliott HiReach to turn a two-truck job into a simple one-truck operation.

Built for You.

Model	Working Height	Side Reach	Platform Capacity	Platform Size	Lifting Capacity	GVWR Min.
M43	48'	38'	500 lbs	30" x 54"	2,000 lbs	19,500 lbs
