

C-MGMA/MGMA

Kramer's Micro VGA + Audio cables provide high performance and flexibility. These thin cables constructed of 5 micro coax for the RGBHV signals additional wires and twisted pair passing ID bits and audio signals and pre-terminated with molded 15-pin HD connectors (Male to Male) and a 3.5mm stereo mini jack, are flexible to make installations easy and neat.

- Outer diameter of 6.0mm (0.236 inch).
- All 15 pins are passed through the cable.
- The audio leads are 61.0 cm (24 inch) long at one end and 20.3 cm (8 inch) on other end.
- These cables are ideal for video presentations, home theater and any installations in tight spaces.
- Use these cables with our table solutions for your comfort and efficiency.
