E Series Sound Isolating Earphones

***HEAR THE TRUTH,***  
***THE WHOLE TRUTH AND NOTHING BUT THE TRUTH.***

Perform with confidence. Hear the truth. You nail every note. Professional musicians use Shure E Series Sound Isolating Earphones with their personal monitor systems to hear themselves onstage so they can play their best. Custom fit to naturally block ambient noise, E Series earphones are designed to work with Shure PSM Personal Monitors. Versatile, durable and made for the road, Shure PSM systems offer powerful advantages. Mobility. Control. Portability. And, the superior sound professional musicians demand when performing onstage and in rehearsal. A leader in professional sound for 80 years, Shure produces sophisticated audio products that push your sound further.

# **ON STAGE**

## **EARPHONES**

## e5

---

E5 Sound Isolating Earphones make listening to music an intense experience. These in-ear earphones are top of the line, with dual high-energy micro-speakers. So accurate, they uncover a subtle layer of sound that's usually difficult to detect with traditional headphones or floor wedges. By separating the high and low frequencies, they pull you to the center of your music. Custom fit. Outstanding performance. The sound you dream about.

## e4

---

E4 Sound Isolating Earphones deliver high definition audio for discriminating users. This newest addition to Shure's E Series line features a unique balanced armature driver with tuned port, for incredibly detailed audio across the entire frequency range. Lightweight and low profile, the E4 includes a personal fit kit for maximum comfort. Innovative components. Premium sound. The E4 is the perfect choice for musicians and audio enthusiasts looking for a great sounding monitor in a compact and affordable package.

## e3

---

E3 Sound Isolating Earphones bring out the richness of your music that usually gets drowned out. Hear music the way it's made, filled with texture, highs and lows. High-energy micro-speakers give you that full tone across the entire frequency range. And with a custom-fit and sleek design, you can be as active on stage as you are off. Truly advanced audio.

## e2

---

E2 Sound Isolating Earphones mark the new standard for entry-level premium audio. The in-ear design naturally blocks out background noise so you only hear what you're supposed to hear. A full range of sound hits you with precision and clarity from a single, high-energy driver. Light weight. Custom fit. Dead on. It's sound you trust.

# OFFSTAGE

## EARPHONES

Retain the same high-quality sound you hear onstage everywhere your music goes. Shure E Series Sound Isolating Earphones let you further explore the rich textures of your music while being active. Comfortable enough for casual use and durable enough to take anywhere from the gym to the trails. Expect a studio quality listening experience from your MP3, DVD or CD player, or laptop. Created by the experts for musicians who get their inspiration from anywhere. Hear for yourself the progressive sound of the Shure E Series Earphones at your favorite music store.
