SoundScape 360 | CineScape Series

SoundScape 360

CineScape Series

The SoundScape 360 is Vutec's second-generation ArtScreen designed to accommodate the new single speaker surround sound technology or a center channel speaker.

Integrated into the ArtScreen housing, SoundScape 360 features a fully dimensional sound compartment that can be positioned above or below the video display.

SoundScape 360 is available for Plasma or LCD displays from 32 inches to over 65 inches in size. For video projection screens, the CineScape series is available up to 110 inches in size. Custom sizes can also be accommodated.
