Product Description

These sturdy, reliable tool bags from Steren enhance worksite performance by making access to tools orderly and efficient. Built to last for years in any environment, these professionally crafted bags are quality manufactured from fabric that's rugged and weather-resistant. Stitching and industrial-strength rivets provide the ultimate protection for many years of daily use. Each bag is ergonomically designed for easy transport to and from worksites for keeping both tools and worksites safe from damage. The bags come in an attractive black and brown color combination, and feature easy-to-access pockets sized for different tools.

Tool Bags and Pouches
