

Cylinder Stands

Model 704

Heavy duty cast aluminum **Model 704** stand adjusts to hold cylinders from 6" to 9¹/₄", hinges open for installation without lifting the cylinder or disturbing connections.

Model 703

Model 703 cast aluminum stand hinges open and has four thumb screws to tightly grip cylinders from 8" to 9".

Model 701

Model 701 cylinder stand has a flat bottom support so it can't "ride up" on the cylinder. Adjustable nylon strap keeps cylinder safely in place against upper support bar; lower support bar stops cylinder shift. Thick PVC coating prevents marring of the cylinder surface.

Cylinder Wall Brackets

Model 715 and 717

Troemner wall-mount cylinder brackets are made of cast aluminum, contoured to allow cylinders to fit firmly along the support edge. One-inch nylon strap, 54" long, has a nickel-plated non-slip spring catch and buckle for fast, easy adjustment. Recessed screw holes at each side of the bracket allow easy wall-mounting. For cylinders up to 14" diameter.

Cylinder Bench Clamps

Rugged cast aluminum clamps safely secure gas cylinders to bench, table or other flat surface up to 2¹/₂" thick with at least 1¹/₂" overhang. One-inch wide nylon strap features a non-slip spring catch and buckle for easy adjustment around cylinders from 4" through 14" diameter.

Model 711

Model 711 bench clamp has a large tightening handle and a nylon pad to prevent damage to the bench or table surface. Two chamfered mounting screw holes are provided for permanent attachment to the surface.

Model 716

Model 716 bench clamp is similar to model 711, but includes a sturdy safety chain for extra security.

Model 712

Model 712 bench clamp has two screw clamps for extra-firm mounting of tanks up to 14" diameter.

Portable Cylinder Support

Model 713

A sturdy cylinder stand and a convenient cylinder dolly all in one! It's designed in two interlocking halves and can be installed without lifting the tank. Built-in rubber wheels for easy mobility. Adjustable for cylinders from 7" to 9¹/₄" diameter.
