FOR CENTER CHANNEL SPEAKERS

STEEL SPEAKER FOUNDATIONS™

The perfect home theater solution

Resonance damping rings and adjustable isolation studs provide superior acoustic isolation. Custom-designed top plate provides safe and secure bolt-mounting option for many of today's speakers. The heavy-gauge tubular steel pillars can be filled with sand or shot for increased mass. A wire management system keeps speaker cables neatly organized. And the heavy 10-gauge steel base was designed by Cramer Studio and includes both adjustable spikes and rubber feet.

SF26b | SFV49b

- « Heavy-gauge steel construction provides extreme rigidity and stability
- « Large heavyweight base provides superior stability on any surface
- « Cork resonance damping rings isolate vibrations to help provide superior acoustics
- « Center channel stand tilts speaker to focus sound using adjustable studs or neoprene speaker pads
