Product Description

For today's high-performance sound systems, Steren's Pro Grade Audio Cables are the professional installer's choice for providing exceptional audio transfer. These multiconductor cables simplify installation by reducing the need for pulling multiple wires. The high-strand-count construction offers excellent audio signal transfer. Designed for digital and analog speaker and home theater systems, these UL or ETL Listed cables meet the NEC 725 CL3 standard. They feature 16AWG copper conductors with flame-retardant PVC jacket. These high-quality cables are available in two and four-conductor versions and in 500' and 1000' pull boxes.
