Product Description

Providing the maximum in video and audio signal connectivity, Steren's HDMI to DVI-D male-to-male cables offer a valuable connectivity solution for HDTV sets, plasma screens, set-top boxes and computer monitors. The cables support the highest video resolution possible and accurately transfer multichannel digital audio. Our precision manufactured, fully molded cables feature copper conductors and gold-plated beryllium contacts. The ultimate in integrity and interference protection for these high-performance cable assemblies is ensured through individually shielded wire pairs with drain wire, 100% Aluminum-Mylar foil shielding, 95% tinned copper braiding and 100% tinned-steel shielded connectors.
