- Positive 3 point locking system on doors
- Louvers for ventilation
- Fully assembled only
- Door stiffeners
- Optional built-in locks
- Coat hooks
- Coat rod

ADA Compliant Lockers

It's important in the public sector to offer and identify accessibility for those that require enhanced access. Tennsco ADA Compliant Lockers are specifically designed to provide easier access to contents from a seated position. This is achieved through your choice of a bottom riser to raise the lower shelf, an ADA compliant lock, or coat hooks and upper shelf at a reduced height.

The special ADA compliant lock allows the locker to be opened by simply inserting the key. No turning of the key is required allowing for single handed operation.

Best of all, Tennsco will modify several of their standard lockers offering a variety of choices. ADA Compliant lockers are available for single tier, the bottom locker of a double tier, or the bottom two lockers of a triple tier.

These ADA Compliant lockers are shipped with the universal handicap symbol to notify those not to block access to these lockers.

SYSTEMS FOR SUCCESS

Note: For safety, all lockers are required to be floor or wall anchored.
