**ER2000 ESCAPE RESPIRATOR**

North's ER2000CBRN emergency escape respirator is easy to don and universally sized. The clear polyurethane hood is anti-claustrophobic and allows emergency personnel to quickly and easily identify the wearer. NIOSH CBRN Cap 2 approval to provide a minimum of 30 minutes of respiratory protection from non-Immediately Dangerous to Life and Health (IDLH) atmospheres containing Chemical, Biological, Radiological and Nuclear (CBRN) respiratory hazards as well as Toxic Industrial Chemicals (TICs).

PART #	DESCRIPTION	PACKAGING
ER2000CBRN	Escape Respirator	1 per package
ERTRAIN	Training Conversion Kit	1 per package

**GAS MASKS**

Different threat levels require different levels of protection. Select the protection that is right for your Responders and Receivers.

**54400 Series Riot Control Gas Mask for non-IDLH (Immediately Dangerous to Life and Health) atmospheres**

The economical gas mask designed for use where CBRN protection is not required. This respirator is NIOSH approved for protection from acid gases, organic vapors, tear gas plus P100 protection from particulates including radiation. Assembly includes one facepiece, riot control cartridge and carry bag.

**54500 Series CBRN Gas Mask**

Ideally suited for early responders such as Law Enforcement, Fire Service and Military personnel. Chemical, Biological, Radiological and Nuclear (CBRN) canister can be mounted on left or right side. Meets NIOSH CBRN APR Standard communication requirements. NIOSH CBRN Cap 1 Approval. Complete assembly includes facepiece, CBRN canister and carry bag with belt loops for easy portability. Sizes small and medium/large.
