

# Z-Line/Steel Shelving

## *Boltless Steel Shelving*

*Tennsco's Z-Line/Steel Shelving offers a complete storage solution for everything from basic back-room storage to totally integrated warehouse applications. High performance box formed shelves come in twelve different sizes and adjust on 1 1/2" centers. Adder units use a common "T" shape post to create a continuous row of shelving.*

*"V" shaped beams are used at the top and bottom of the units for rigidity and support the two shelves; intermediate shelves are held in place with compression clips. This makes for fast assembly and shelf access from all sides... no sway bracing required!*

## **Optional Back, Door and Sides For Secure Storage**

Hinged double doors attach to angle posts and are secured with a locking handle and three-point locking system. Optional back and side panels along with hinged doors provides ideal security for stored items.

# Heavy Duty Reinforced Shelving

## *Superior Strength*

*For the strongest shelving system available, Tennsco's Heavy Duty Reinforced Shelving offers load capacities up to 4,000 pounds per shelf and 13,000 pounds per section. The combination of 16-gauge steel shelves with a 14-gauge support framework makes it perfect for storing dies, motors, jigs, fixtures and other heavy materials. Choose from eight shelf sizes (ranging from 36" w x 18" d to 96" w x 36" d) and three post lengths to match your storage requirements. Braceless construction allows easy access from all sides, and the smooth steel surface makes placing and removing items much easier than on wood or wire shelves – simply slide items on and off.*

### **Designed to Handle Your Toughest Loads**

Unique combination of shelf supports with cross beam supports creates a super-reinforced unit and prevents deformity even under heavy loads.

### **Superior Strength**

Our rivet attachments offer superior strength to shelving and with no need for nuts and bolts, it makes assembly a snap!

SYSTEMS FOR SUCCESS

# Bulk Storage Rack

## Big and Heavy Storage

Here's a great solution for storing bulky items. Tennsco's Bulk Storage Rack has shelf capacities between 2,150 and 4,150 pounds (depending on shelf size). Upright assemblies are pre-welded for strength and will support up to 17,000 pounds, based on 24" centers. Choose from two styles of beams which use a unique tapered finger design to lock into the uprights on 2" centers. Deck supports span between beams and can be positioned as needed on 6" centers. Construct units from four widths (48", 60", 72" & 96"), five depths (24", 30", 36", 42" & 48") and seven heights (72", 84", 96", 120", 144", 168" & 192"). Choose from corrugated steel, particleboard and wire decking. This product is Tennsco's fastest and easiest shelving to assemble.

## Easy to Assemble; Easy to Reconfigure

Tennsco Bulk Shelving offers easy adjustability and expandability to fit your specific storage needs for today AND tomorrow.
