

# 3150

## Pedestal Mounted Drinking Fountain

### FEATURES & BENEFITS

#### Hi/Lo Design

Adult or child barrier-free capability is achieved by using an adjustable height arm, this combined with its ease of use equals a number of installation/location possibilities.

#### Front Access

With its patented (Pat# 6,981,692) push-button valve assembly which allows for front access stream adjustment as well as cartridge and strainer access, this fountain offers the ultimate in ease of maintenance.

#### Bubbler Head

Polished chrome-plated brass bubbler head features an integral basin shank for added strength, and is equipped with a shielded, anti-squirt orifice that provides a steady sanitary source of water.

#### Drain Clean-Out

Top-down access to the drain allows the fountain to be cleaned without taking the unit apart, which is ideal for outdoor settings that are high in drain-clogging sentiment like leaves, garbage, and other debris.

#### Construction

Heavy-duty vibra-cast reinforced concrete construction with exposed aggregate finish provide a perfect addition to outside environments, along with vandal-resistant bottom and access plates for added peace of mind. Stainless steel basin with a high-polished finish compliments almost any setting, and it also resists stains and corrosion.

#### Access

Low profile designed arm and adjustable height location allows for adult or child ADA access.

### SPECIFICATIONS

Model 3150 "Hi-Lo" adult or child barrier-free square concrete pedestal drinking fountain shall include polished stainless steel basins, adjustable child ADA capable arm, push-button operated valves with front-accessible cartridge and flow adjustment, polished chrome-plated brass vandal-resistant bubbler heads protected by hood extensions, polished chrome-plated vandal-resistant waste strainers with top-down clean-out access, Portland Gray exposed aggregate concrete finish with galvanized wire reinforcement, integral mounting plate, vandal-resistant stainless steel access plates, and 1-1/2" slip waste.

### OPTIONS

- ❑ Bubbler Head: Model 5725 EnviroGard™ bubbler is a polished chrome-plated solid brass bubbler head with stainless steel water activated pop up canopy. (Patent No. 7,025,282)
- ❑ Hose Bib: Model 6275, compression hose bib faucet assembly with rough chrome-plated finish.
- ❑ Sand Trap: Model 6611, sand trap for installing adjacent to pedestal drinking fountains to help prevent debris and contaminants from clogging waste line.
- ❑ Concrete Colors: Haws offers the full palette of L.M. Scofield's integral admixtures as illustrated on the L.M. Scofield color chart and the choice of 4 different finishes. White cement is also available.

To see all options for this model, visit [www.hawsco.com](http://www.hawsco.com)

### APPLICATIONS

Perfect for either public or private settings, our concrete vibra-cast series is a great fit in "open-air" environments. Suitable in areas where weather conditions may be cause for concern, this series stands strong from the forest to the beach. Reinforced concrete vibra-cast design not only protects from corrosion, its Portland Gray color makes it recognizable enough to locate without compromising the outdoor atmosphere. This type of pedestal drinking fountain may also be placed in a variety of settings such as: parks, schools, and other recreational outdoor environments where the temperature remains above freezing.

Model meets all current Federal Regulations for the disabled including those in the Americans with Disabilities Act. Haws manufactures drinking fountains, electric water coolers and electric drinking fountains to be lead-free by all known definitions including ANSI/NSF Standard 61, Section 9, California Proposition 65, and the Federal Safe Drinking Water Act.

Stainless steel basin with a high-polished finish compliments almost any setting, and it also resists stains and corrosion.

#### All-Weather Capabilities

Fully engineered system with the pneumatic operated freeze-resistant valve installed below frost line to drain water to non-freezing depth allowing fountain to function year-round. Assembly can be lifted to surface and lowered back into casing for easy maintenance without disturbing the fountain.

#### Access

Low profile designed arm and adjustable height location allows for adult or child ADA access.

### SPECIFICATIONS

Model 3150FR "Hi-Lo" adult or child barrier-free freeze-resistant, square, vibra-cast reinforced concrete pedestal drinking fountain shall include hood extensions to protect the chrome-plated brass bubbler heads, adjustable child ADA capable arm, waste strainers that allow for top down access, and push button activated pneumatic valve system. Portland Gray in color with exposed aggregate finish and wire reinforcement.

### OPTIONS

- ❑ Step: Model 6620, matching square concrete step, 10" high.
- ❑ Valve Box: Model 6625, ground box with lid, used with freeze-resistant valve models 6518FR and 6518.2FR.
- ❑ Inlaid Tile: Special 2" x 2" tile may be provided or specified. Provide sample for special quotation.
- ❑ Concrete Colors: Haws offers the full palette of L.M. Scofield's integral admixtures as illustrated on the L.M. Scofield color chart and the choice of 4 different finishes. White cement is also available.

### APPLICATIONS

Perfect for either public or private settings, our concrete vibra-cast series is a great fit in "open-air" environments. Suitable in areas where weather conditions may be cause for concern, this series stands strong against any element. Reinforced concrete design not only protects from corrosion, its Portland Gray color makes it recognizable enough to locate without compromising the outdoor atmosphere. This type of pedestal drinking fountain may also be placed in a variety of settings such as: parks, schools, and other recreational outdoor environments where the temperature may drop into freezing conditions.

Model meets all current Federal Regulations for the disabled including those in the Americans with Disabilities Act. Haws manufactures drinking fountains, electric water coolers and electric drinking fountains to be lead-free by all known definitions including ANSI/NSF Standard 61, Section 9, California Proposition 65, and the Federal Safe Drinking Water Act.
