

Ultra Modular IBC Spill Pallets®

Meet EPA Regulations With Low-Cost Spill Containment For Multiple IBC Tanks

- Indoor and Outdoor Models available for 2, 3, 4 or 5 tanks.
- Each IBC tank sits on a low-profile spill pallet with a containment capacity of 75 gallons — Expansion Tanks provide 65 gallons of additional capacity.
- 100% polyethylene construction — eliminates the potential for rust and corrosion.
- “Flow-through” bulkhead fittings connect spill pallets and Expansion Tanks together, allowing spills to be channeled throughout the containment system — containment capacity is thereby “borrowed” from adjacent spill pallets and Expansion Tanks.

3-Tank Model: 355 Gallon Capacity (shown in “L”-shaped configuration, Part# 1126)

- Meets SPCC and EPA Container Storage Regulation 40 CFR 264.175.

- Helps meet Stormwater Management Regulations — NPDES, 40 CFR 122.26 (1999).

3-Tank Model: 355 Gallon Capacity (Part# 1166)
