

Ergonomic Operational Seating

Lyon Operational Chairs are designed with state-of-the-art ergonomic features. The Operational series features an adjustable footring which offers great flexibility for positioning the seat. The combination of different height work surfaces, jobs to be performed and body types all influence the need for adjustable chairs in the workplace. Select the amount of adjustment to meet your needs exactly.

Technical/Ergonomic Features

- Total seat height adjustment range is 19" to 27". Pneumatic lift allows for automatic 8" adjustment while seated.
- Telescoping dustcover conceals lift.
- Microcellular, self-skinning polyurethane backrest and seat provides exceptional durability and long-term support and are twice as soft and strong (tear resistant).
- Seat and back are ergonomically designed to promote good posture. Waterfall front to ease pressure behind the knees. Contoured back with tilt for lumbar support.
- Adjustable extra large 20" diameter circular footring.
- Five leg 26" diameter base of molded nylon with webbed fiberglass reinforcement.
- Heavy duty glides for rough environments.
- Ultra-violet resistant, black seats and backs, unless noted otherwise.
- 250 lb. capacity.
