

Professional Extricator Hydraulic Rescue Kits Extricator Forcible Entry Kit

Use it to open damaged doors in plants and factories, or raise clutch and brake pedals in auto rescue extraction by using the Spreader and Wedge combination. Come-a-longs and chains are used to pull seats, doors, steering columns, and to roll quarter panels out of the way. The straight Ram and attachments are used to lift heavy objects and push metal within the vehicle to free trapped victims. This kit will allow you to move in multiple directions at the same time. *Ship. wt. 150 lbs.*

L869 4-Ton Rescue Kit \$1,577.95

Air Hammer Rescue Kits

Easy Operating Kits Featuring Non-Turn Chisels

High-quality Air Hammer Rescue Kits have been designed specifically for extrication and are field-proven not only for emergency extrications but for all types of emergency cutting such as: factory doors, casement windows, fire doors and many other jobs. Release the trigger and the tool stops instantly, unlike some cutting tools that gradually slow down, leaving the operator vulnerable. Completely portable and compact enough to be easily carried in fire trucks and rescue vehicles. Operated off fresh air tanks, compressors, nitrogen bottles, cascade systems or air brake outlets. *Use with either 2216 or 4500 psi air tanks.*

Standard Duty Kits

Complete Kit with everything necessary to hook up to an air tank and begin extrication work.
