

Darley Portable Pumps

P2 - The Revolutionary Pump and Generator Combination

The P2 is a revolutionary new tool in your fire fighting arsenal. It features the same fire fighting power as our regular portable and skid-mounted pumps and also incorporates a 120-volt AC generator. The unique clutching system, patent-pending, allows the generator to be operated independently from the pump: pump only, generator only, or both simultaneously. It's the perfect package for operating scene lighting or electric hand tools without the need for a separate stand-alone generator. Featuring 1500w peak capacity (1000w continuous), the P2 is available with an 18 hp Briggs & Stratton Vanguard series engine or the larger 23 hp engine. Both the Darley 1.5AGE and 2.5AGE pumps can be mounted, supplying high-pressure or high-volume performance to suit your pumping requirements. The electrical package features a 15 amp, two-outlet, GFCI receptacle housed in a weather-proof enclosure. For pumping and power in one package, turn on the P2.

1-1/2AGE 18V P2: \$7,090

Briggs & Stratton 18 Vanguard

- ▶ 4 cycle, 18 HP, V-twin, OHV
- ▶ Replaceable oil filter
- ▶ 12-volt starter
- ▶ Recoil rope start back-up
- ▶ 16 amp regulated alternator
- ▶ 7.2 qt. fuel tank

Performance

120 gpm @ 130 psi
 100 gpm @ 170 psi
 50 gpm @ 250 psi

Unique patent-pending clutching system allows the generator to be operated independently from the pump.

DIMENSIONS

- ▶ 27" L x 21" W x 25" H, 157 lbs.

HE 64RP Hercules

- ▶ Dependable Rotax engine
- ▶ Booster tank fill
- ▶ Transfer and supply
- ▶ Multiple hand lines
- ▶ Wildland/Attack fire suppression

Powerful 64 hp engine

Features: 64 HP Rotax 582, 2 cylinder, 2-cycle, liquid-cooled, 12-volt electric start and recoil rope start back-up, 6 gal. fuel tank, hose and adapter, oil injection, no pre-mixing of fuel, dual ignition, overheat, overspeed and loss of prime protection systems, vernier throttle control, thermostatically controlled high-capacity heat exchanger, liquid-filled compound gauge, ignition light.

Options: Electric governor required for performance above 200 psi. Call for additional options.
