

Firefighting Handline Nozzles

This nozzle is a multi-gallage device which gives the nozzle man a greater degree of flexibility. The flow rate can be manually adjusted during operation without having to shut the nozzle down. It has been designed to give a constant flow, whether the stream pattern selected is on straight stream, power cone or wide angle fog. Constructed of anodized black aluminum or plain brass. Main features include: spinning turbine teeth which give excellent breakup of the water stream, flush mechanism, large ribbed rubber bumper, large rubber handle, dual Trunion drive on ball shut-off which provides smoother shut-off and less maintenance, ball shut-off is of the full flow type with chrome brass ball and nylon seats. Nozzle comes standard with 1 1/2" female NST. Ship. wt. 2-9 lbs.

► Adjustable to 30-60-95-125 gpm

Cat#	Description	Length	Wt.	Price	Ship.
AF258	Aluminum Nozzle w/Out Grip	7 5/8"	2 lbs.	\$538.95	
AF259	Aluminum Nozzle w/Grip	8 1/8"	3 lbs.	\$618.95	
AF260	Brass Nozzle w/Out Grip	7 5/8"	7 lbs.	\$856.95	
AF261	Brass Nozzle w/Grip	8 1/8"	9 lbs.	\$936.95	

EZ PUP Allows You To Fight Fire . . . Not Fatigue

The EZ PUP contoured shape fits against your body like a rifle stock; this makes it possible to transfer the reactionary forces of a charged line away from the arms and to an area of the body that has larger muscle and bone mass such as the shoulder, hip or thigh. These positions allow you stand erect, thus taking the twist and strain off the back. What's more, the EZ PUP allows for one hand operation, leaving the other hand free to adjust the nozzle. Comes standard with high visibility, photo-luminescent stripes. Ship. wt. 5 lbs.

Spray Nozzles

This constant gallonage spray nozzle features aluminum alloy construction with a molded bumper for protection, ball shutoff and pistol grip. The flow pattern can be adjusted from a cone shaped position to a straight stream by rotating the bumper. Ideal for drop-in units or first response. Rated at 25 gpm. Choose from either 1" or 1 1/2" NSTF inlet. Ship. wt. 3 lbs.

► Contact Darley for information on color coded pistol grip and gpm

AS158 1" Nozzle with Shutoff and Pistol Grip 25 gpm \$237.95

AS159 1 1/2" Nozzle with Shutoff and Pistol Grip 25 gpm \$237.95

Tri-Flow Nozzle With Triple-Flow Straight Stream

The new Tri-Flow nozzle body is made from aluminum bar that is corrosion-resistant plated. The massive Neoprene bumper is specially formulated to resist damage and aging. Features a full-time ball bearing 1 1/2" swivel base. Big volume combination fog and straight stream, dense fog delivery with no voids or fingers in pattern, metal ball with non-stick Delrin seats and rugged hard-coated construction that is built to last. 200, 150 and 75 GPM @ 100 PSI. Available NH (NST) or NPSH (IPT) threads. Ship. wt. 6 lbs.

AF791 Tri-Flow Nozzle \$394.95

Playpipe Nozzle

Playpipe nozzle combinations offer big nozzle delivery with easy handling. Opening and closing is easy at any pressure. Features hard-coated, lightweight aluminum, full-time ball bearing swivel base, metal ball with Delrin seats, big volume combination fog and straight stream, massive rubber bumper and dense fog delivery with no voids or fingers in pattern. Flows to 256 gpm. Available with 2 1/2" NST threads only. Ship. wt. 11 lbs.
