## NITRILE ANTI-STATIC FINGER COTS – POWDER-FREE

115LNR

Special nitrile formulation provides great dexterity and avoids latex allergy issues.

### FEATURES AND BENEFITS

- 100% nitrile formulation contains no natural rubber latex proteins that can cause an allergic reaction but offers stretch and comfort of natural rubber.
- Inherently anti-static and will eliminate damaging static discharge (surface resistivity of 10<sup>11</sup> ohms/sq.) in many applications.
- Multiple washed cots are powder-free and have low particle count. Less potential for contamination of item being handled.
- Very low extractables mean less contamination from reactive ions.
- 3 mil thickness provides excellent tactility.
- Multiple sizes for added comfort. Increases user acceptability and reduces fatigue.
- Uniform thickness assures equal sensitivity in all critical areas. Provides balanced protection to all areas covered.
- Comply with USDA and FDA regulations, 21 CFR, for use in food processing.

### APPLICATIONS

- Clean-rooms, clean processes, pharmaceutical industry, electronics assembly, handling clean products and components.
